Re: Docket NO. 2007-286-W/S

We as concerned customers of the Utilities Services of South Carolina, Inc. would like to request a hearing in York County. We would also like the hearing to be held in the evening so all who would like to attend will not meet conflicts with other obligations such as work, school, ect.

There are several problems that we feel need to be addressed. We do not see meter readers reading our meters each month and feel that our bills are not being figured appropriately. Some of us have had changes in the number of people in our homes, water leaks fixed, and pools moved out but see no noticeable changes in our bills each month.

We know with the economy and the need to update requires certain increases but what is being proposed here is just too much. In most cases, the bills will almost double and for people on a fixed income and a tight budget this will just add to already stressful situations.

We would like our bills to start reflecting the charges and a breakdown of each one. We did not know what we were being charged until we received the docket we are referring to. We also feel that the letter could have been sent out sooner in order to give everyone more time to respond and get the requests in writing sent in on time.

We look forward to learning when our hearing will be scheduled.

Thank you,
